Old Poplar Library, the well-known landmark on the A12 Blackwall Tunnel Approach Road has undergone a transformation. This is one of the first symbols of the success of Leaside Regeneration in bringing more opportunities to the local area.

Old Poplar Library is enjoying a renaissance as an office development, part of the Leaside Business Centre, with live/work units on land at the rear of the building and adjacent office space at Container Futures and at Bromley Hall.

Old Poplar Library with its strong stone features and fascinating interiors conveys a sense of history to all those who work there. Set behind listed facades, it represents the first phase of an exciting regeneration project, Poplar Riverside, a high quality mixed-use development on the banks of the River Lea.
